

**THE OUTLAWS
OF WEB3**

PITCH DECK

VENDETTA GAMES

**CRYPTO-NATIVE GAME
STUDIO OBSESSED WITH
CREATING ADDICTIVE WILD
WEST GAMING EXPERIENCES
FOR WEB3**

THE CHALLENGE

The Wild West genre is bigger than ever in gaming. Vendetta Games aims to **capitalise on this genre**, combining it with a twist of blockchain technology.

GameFi is changing at a pace that most Web3 companies cannot keep up with. Web3 gaming companies often **lack sustainable models** and have a bad reputation.

We are **experts in game business model design** and in opening new markets, consumer segments and audiences to the web3 world.

THE SOLUTION

Vendetta Games - the ultimate AI-powered gaming ecosystem with an experienced and vast web3 community. Our unique AI-leveraged approach allows our gameplay to stay relevant and develop at a faster rate than that of our competitors. This approach benefits both gamers and the overall community.

ACCESSIBILITY

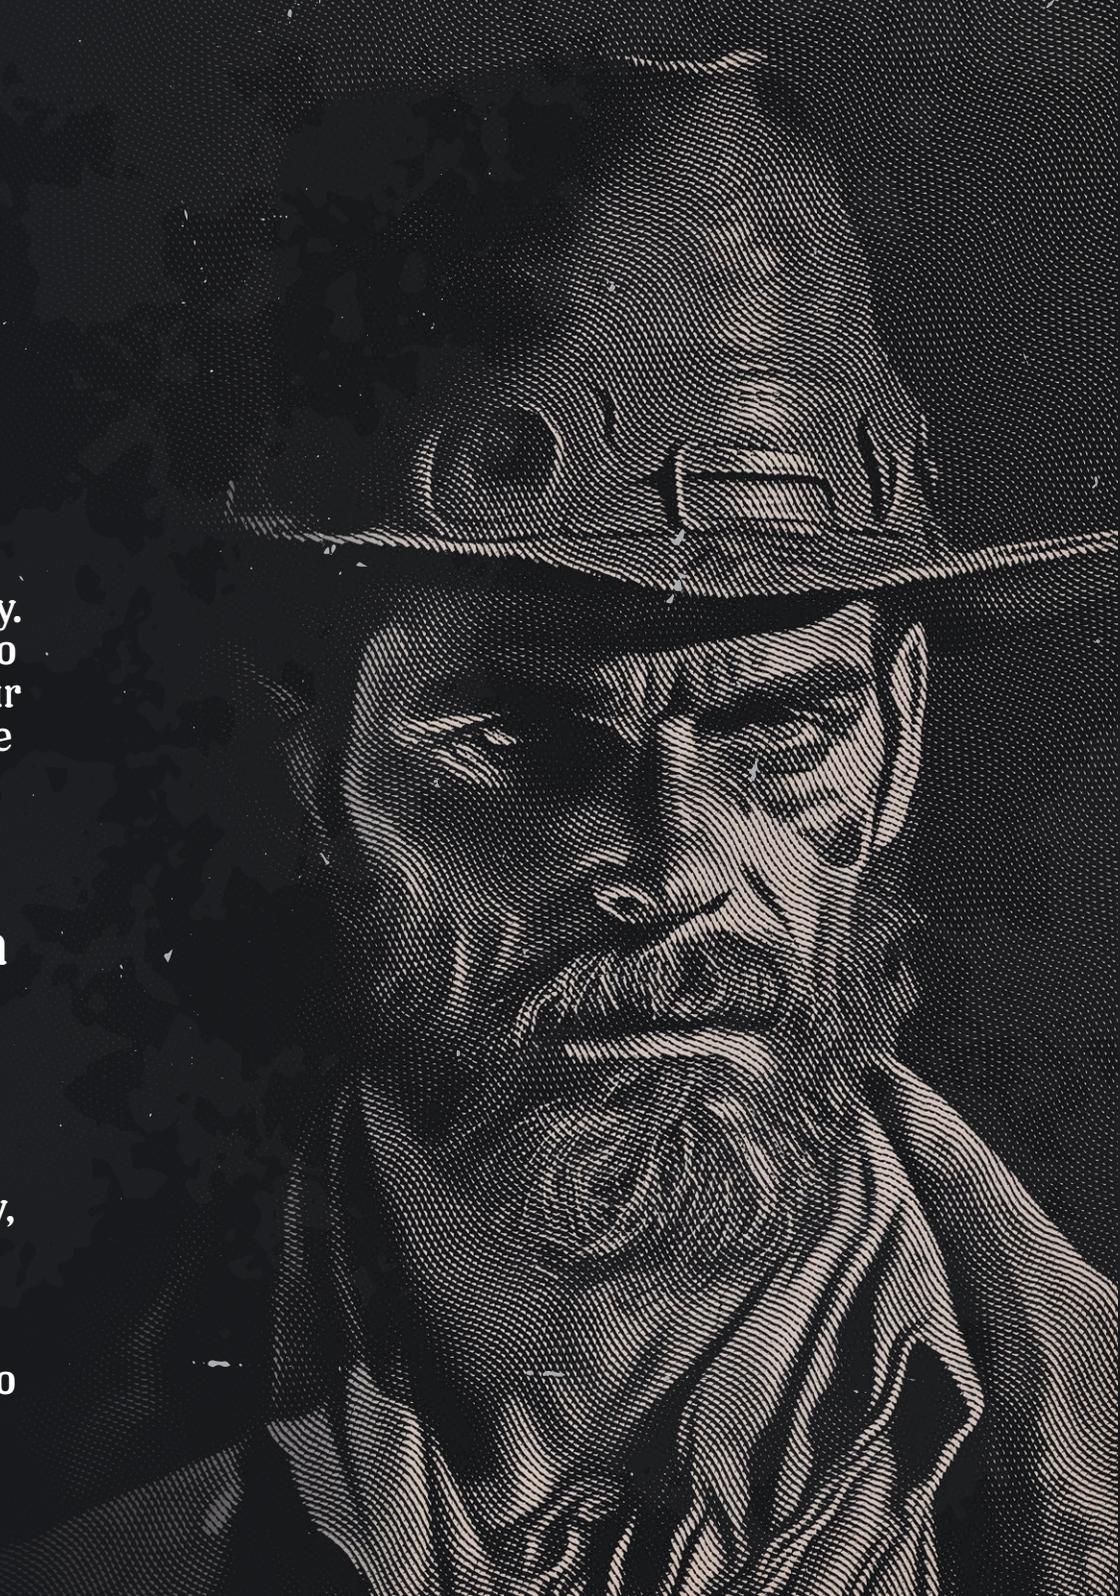

The ultimate AI-powered gaming ecosystem with a vast web3 community and a frictionless gaming experience. A gaming studio, flagship metaverse and 7 mini games as well as land ownership, competitions and more.

QUALITY

A game design that is enhanced by web3 features and optimised for Wild-West style games that are easy to play, without NFT ownership - but difficult to master

REACH

Free to play with continuous growth across the project to ensure active involvement. This will include land and property ownership, competitions and events and more.

WHY NOW?

The crypto gaming market is merely at its infancy stage, expecting to skyrocket in the coming years with a prediction of hitting a market of over \$800 billion by 2028. There has never been a better time to enter the market than **NOW**.

With this being said, the demand for Western-theme games is at an all time high. Red Dead Redemption II made \$725 million in its opening weekend alone, confirming once more that Western is back!

Our dedicated team has revived the Wild Wild West within our ecosystem, which is no doubt on its way to success.

THE GAMES

Shootout on Mainstreet

The ultimate Wild West showdown! A fast-paced PvP shooter game where the winner takes the glory and the spoils.

Canyon Run

Players will race each other on horseback through the challenging and hazardous Chalk River Canyontrail, contending with nature's elements along the way.

Chalk River Invasion

A co-op game where you team up with other players to defend Chalk River from a zombie invasion:

CHALK RIVER

CHALK RIVER

Chalk River, our flagship product, is currently in closed beta, and it's already a blast to play. Chalk River is a Wild West open world action RPG and metaverse that features multiplayer battle royale matches and seven addictive mini-games.

UTILITY

TOKEN

The token will grant numerous utility benefits to holders including being used for staking pools and rewards, exclusive NFT whitelist spots, and horse breeding.

CURRENCY

Chalk River is powered by the Gold Dust token, as the in-game currency.

NFT

Unique Utility: \$40,000 NFT staking pool limited to the holders. In the runup towards the TGE, after the reveal of 888 NFTs, holders will be provided a unique opportunity through an NFT staking pool for this collection.

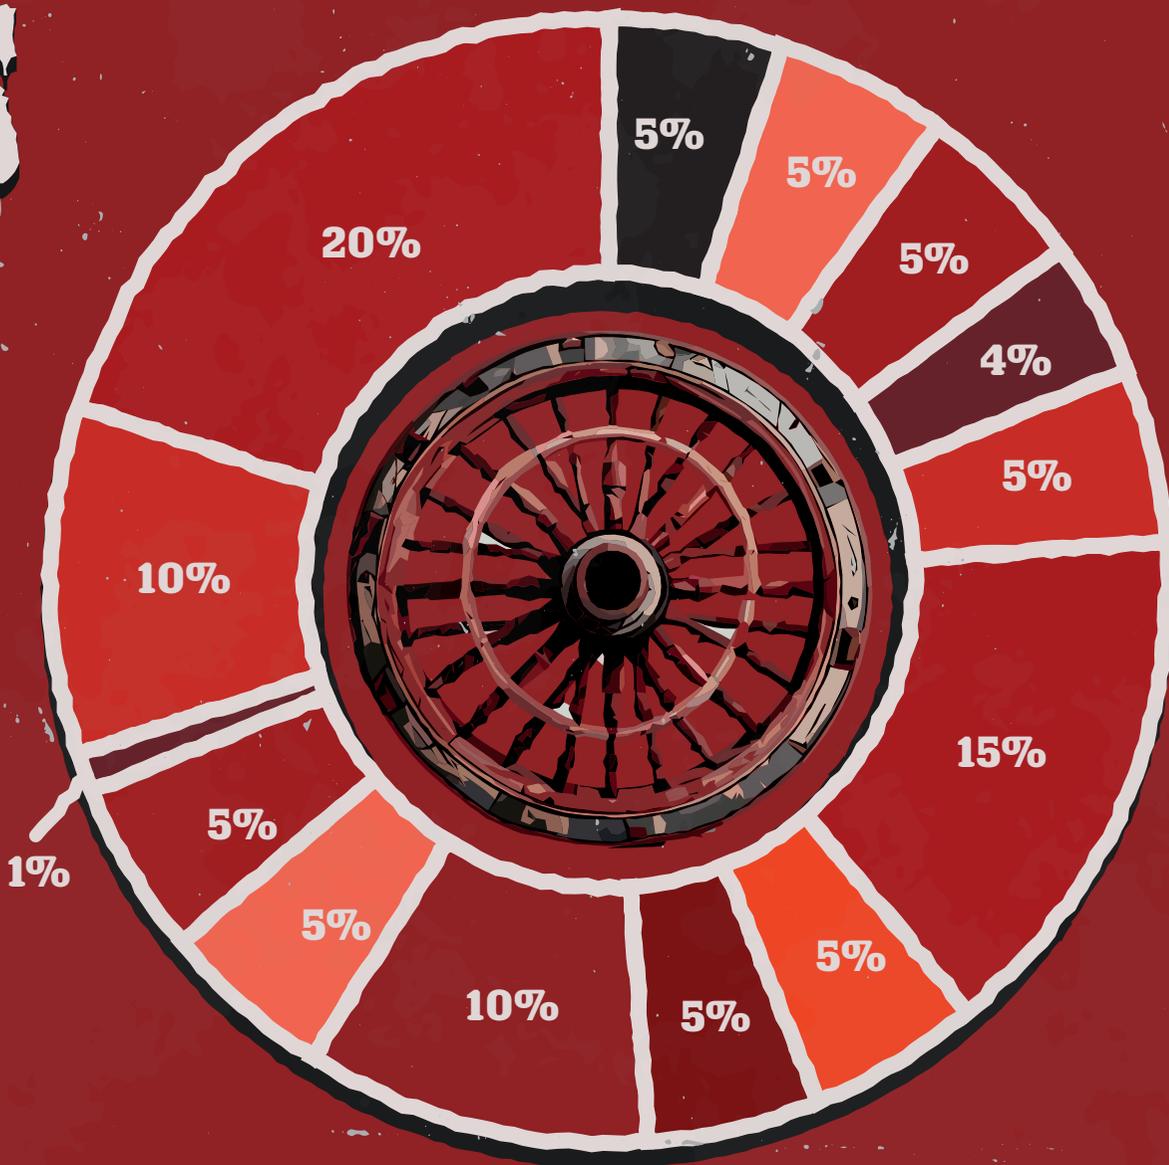

BENEFITS

In-game discounts
Priority access to future collections and drops
Networking opportunities
